

# Plant A Seed Feed A Soul

Hope Seeds is a Christian ministry providing seed and educational resources to other ministries serving communities in need around the world.

## Our Philosophy and Method of Outreach:

### Empower!

Hope Seeds, Inc. was founded in 1999 as a Christian based 501(c)(3) company which provides quality garden seed to hungry and hurting nations. Ten million packets of carefully selected varieties of nutritious vegetables have been sent to 60 nations, customized for climate and culture. The staff of Hope Seeds has extensive experience within the vegetable seed industry and uses this network of knowledge to assure a continuous supply of high quality seed.

### Educate!

Educational materials about gardening, nutrition, and seed saving are supplied with each shipment. The Hope Seeds campus in southeast Missouri has the capacity to teach many aspects of gardening, seed saving, seed storage, and product development, thus assuring that quality seed shall always be accessible.

### Encourage!

Vegetable seed is an important and deeply appreciated essential for sustainable nutrition — a resource not readily available or affordable in most countries we serve. Most shipments are distributed by missionaries, pastors, mission teams, and the remainder by agricultural relief organizations. The *Message of Hope* tract is supplied so the Good News of Christ may be shared with each packet of seed delivered.

With your support we can make plans to increase our capacity to serve an ever increasing hungry and hurting world. Together we can share the hope within each and every seed ... *Plant a Seed! Feed a Soul!*

Hope Seeds, Inc. is a 501(c)(3) nonprofit organization
