

24 – How can we have seeds for next year?

24 – How can we have seeds for next year?

- If someone gives you seed, or you can buy seed next year, you can have a garden again. But there is another way to get seed for next year – you can save seed from this year!
 - Each vegetable that grows in the garden this year has the seeds in it that can be planted next year if they are saved properly.
 - For example, you can leave a few bean or pea pods on the plant until they are dry and rattle, and then remove the seeds from them and spread them out to dry some more. Then keep them in a safe, dry place until the next planting season.*
 - You will still have plenty to eat, and will also have seeds for next year!
-

God's Word: ⁶I planted the seed of the teaching in you, and Apollos watered it. But God is the One who made the seed grow. 1 Corinthians 3:6

*God created plants to grow with new seeds in them. He also helps you to grow with the seed of His Word in your heart. You are His beautiful garden! Be sure to thank Him every day.

Activity: Do Activity Card Ls. 24 (Materials – crayons or colored pencils)

*For additional seed saving processes, see the Basic Seed Saving Worksheet

Activity Card Ls. 24 - Draw a picture of yourself and your friends or family.

We are part of God's beautiful garden!
